

A World Changing Vision on Giving Tuesday

"Father allowed me to see through my spirit an innumerable number of kids (impacted by KiDs Beach Club®), so broad, so far, so wide. It kind of rocked me."

Today is Giving Tuesday, a day set aside as a "global day of generosity." What started as a simple idea to counteract massive spending that takes place on Black Friday and Cyber Monday, Giving Tuesday is now nationally recognized as a day set aside to encourage people to do good. All across the United States, people will give to charitable organizations like KiDs Beach Club®. We invite you to participate in this national movement as well!

But why should you invest in the change that KiDs Beach Club® is bringing around the world? That leads us back to the quote above about *"an innumerable number of children sitting at Jesus' feet."*

KBC Founder and President Jack Terrell recently sat down with KBC Executive Vice President Dr. Frank Banfill to talk about the KiDs Beach Club® origin story and the vision God gave Jack 17 years ago.

"So I simply bowed my head and said, 'Lord, are you telling me that what you want me to do is Beach Club?' And Frank, I'm telling you, I mean, bells went off; rockets. I mean, it was made crystal clear that the Lord, He wanted me to see through this Beach Club and do something with it.

Father allowed me to see through my spirit an innumerable, I mean, an innumerable number of kids, so broad, so far, so wide. It kind of rocked me. And that's when I'm like, 'Lord, I can't do that.' I'm like 'God, I cannot do that.' And then the Lord, in the way only the Lord can do it, He simply, he said, 'Jack, you're gonna have to trust me.'"

Your gift today will help this vision continue to become a reality.

Now, nearly 18 years later, we are truly seeing that vision become a reality. Here are three key take-aways from the extended conversation.

- When God gives you a vision, obedience is the only option.
- When God gives you a vision, don't expect it to happen overnight.

- When God gives you a vision, realize it can have world-changing implications.
